

MTP adaptor

MTP Adaptor is a high-precision alignment device specifically designed for MTP/MPO multi-fiber connectors. Its primary function is to establish a stable connection between two MTP trunk cables, jumpers, or equipment ports, serving as a "bridge" in multi-fiber optical links. It is widely used in high-density cabling environments such as data centers, AI computing centers, and high-speed communication networks.

Features

- ◆ Brand US Connec, Insertion Loss: $\leq 0.20\text{dB}$
- ◆ Sleeve: Ceramic
- ◆ Durability: 500 times
- ◆ 100% test
- ◆ Operating Temperature: $-40^{\circ}\text{C} \sim +80^{\circ}\text{C}$
- ◆ ROHS compliant
- ◆ REACH compliant
- ◆ Key Orientation: Opposed (Key up to Key down)

Standard color or customized.

Type	Mode	Housing Color	Housing Material
