

Residential Consolidation Enclosure

Description

It is a wall-mounted enclosure with three 20mm-diameter cable entry/exit holes on each side, and one removable cable duct (with brush) at both the top and bottom. Features a large semi-transparent viewing window on the front cover. Supports installation of 10-inch panels, ONU, and other equipment. Equipped with an 8mm grounding bolt.

This design facilitates organized cabling and easy maintenance, commonly used in indoor/outdoor telecom or network distribution scenarios requiring moderate protection and accessibility.

Enclosure dimension: L453mm x W460mm x H160mm.

Features

- ◆ Material is with high quality cold rolled steel.
- ◆ ROHS compliant
- ◆ REACH compliant
